NON-SCHEDULED NEWSLETTER #32

October 1, 1968

DID JOHN KEEL EXPERIENCE WEIRD TIME WARP? On August 15th, your Editor, Gray Barker, and Editor James W. Moseley were contacted by John Keel, eminent UFO researcher and writer, to arrange for a meeting where several confidential matters would be discussed, and where he would hand us an important photograph of a so-called "little man."

This was during my (Gray Barker's) eastern lecture tour, and the evening I would go on the Long John Nebel all-night Show. Trying to agree on a suitable meeting place that all three could find easily, we decided upon the famous Hurley's Bar (though all three of us, it must be said, rarely drink and then in moderation). The meeting was set for 9:00. Jim was delayed by traffic through Harlem and my watch was slow -- so both Jim and I arrived five minutes late. Keel was not there. We had Cokes and waited until 9:30, when we had to leave for a meeting with Long John's producer.

Later Keel phoned Jim quite indignantly. He had been at the bar 10 minutes of nine, and had found it necessary to go to another part of Radio City briefly -- but he returned at 9:10. He sat at the same end of the bar as we, toward the door -- however we did not see each other! It must be explained that all three of us are friends, have seen each other many times, and it would be impossible to consider that we could not have recognized one another.

Was some sort of weird time warp involved? We believe implicitly that John was there -- for his veracity cannot be questioned!

DID "SI'S" CAUSE LONG JOHN CANCELLATION? Later that evening I somewhat laughingly told Long John that Ted Owens had been in error when he told me by letter that the "Si's" (Abbreviation for Space Intelligences which the latter allegedly contacts) had caused his "Long John Versus Show" to be cancelled during prime time and switched to four o'clock in the morning. I knew (1) that Long John and Owens had a verbal spat when the "Philadelphia Prophet" appeared on the LJ Show; and (2) that the "Versus" show was indeed still on the air at 8:00. Owens obviously had been confused after hearing the usual rebroadcast of the show at 4:00 A.M.

When I mentioned this to Long John, however, he didn't chuckle, as I thought he would. Instead, a strange, almost frightened look came over his face.

Two weeks later Jim Moseley learned, through trade channels, that the 8:00 show was indeed being cancelled. John probably knew this at the time I mentioned Owen's claim (The famous Long John midnight to 4:00 A.M. show is, of course, still on the air, and will continue, I can happily report).

Ted Owens has claimed a total of 183 miracles as a result of his communication with the "Si's," or Space Intelligences.

Because of the great demand and other reasons (detailed in a separate letter some of you may receive), Saucerian Books will publish Owens' book, "HOW TO CONTACT SPACE PEOPLE." Despite our natural skepticism in all matters such as this, some of Owens' predictions and accomplishments have been truly amazing.

We have in our locked files what Owens says are actual pictures of the Space Intelligences, which, however, we cannot publish at this time due to his request. We are prevailing upon Owens to grant us

permission to publish them. Although the "SI'S" are friendly beings and wish to help Earth people, Owens feels the pictures should not be published because of the beings' unusual appearance (we're sorry that we cannot reveal anything further on this until permission is granted).

THE THREE MEN IN BLACK: We pass along a quotation from a special Nonscheduled Newsletter No. 3 of the Michigan Investigators of the Flying Saucer Phenomena. There is no address on the publication. We are quite sure we know the source of this underground publication: a well-known UFO investigator who has written a book and who subsequently was suspected of being "shushed up.":

"Last month, we learned of a number of UFOs that were spotted in Albion, Michigan (about 12 miles from Marshall) last October. We have also learned that a gentleman who supposedly had seen and was investigating the object(s) died mysteriously thereafter. Sources have mentioned that, at one time, the dead man had spoken of three men, dressed in black, who had warned him of spreading the information that he had gathered. We understand that the deceased did not heed their warning and was therefore permanently silenced. If the Three Men were really in our area, we are certainly going to investigate!

"For this reason our organization will be conducting investigations into this matter; hopefully we will contact the deceased's friends, as we have reason to believe that the obtained information was 'passed on' to someone else. Meanwhile, other investigations will be undergone at the site of the Albion UFO. The reports that we have receive indicate that the object emitted a light, hovered over the ground, and later swept into the sky. This took place in a forest southeast of the city. One witness reported seeing a dog flee from the area, in a condition of madness. The dog had apparently been burned severely, as the hair on its back was replaced with large blisters. This witness also reported that others had seen the object and the dog while with him."

Please do not prevail upon your editors to give you the address of this underground publication, quoted above.

SINCE WE USUALLY OVERPRINT ON THIS NEWSLETTER, you may receive one of our leftover copies, which we like to send out as samples, or because we want to reach certain individuals with certain information. If you receive this copy and are not a subscriber to the Confidential Non-Scheduled Newsletter, you need not write to us or return it, for it is yours to keep. The Newsletter contains items considered "too hot to handle" in SAUCER NEWS, or too urgent to wait for in our regular magazine. If you wish to subscribe, please use coupon below:

SAUCER NEWS, Box 2228, Clarksburg, W. Va. 26301

Gentlemen:

___ Please enter my subscription to the Non-Scheduled Newsletter for an indefinite period. I enclose \$2.00.

___ Please () Enter () Renew my subscription for SAUCER NEWS for () one year at \$4.00; () Two years at special \$7.00 rate; () Lifetime subscription for only \$25.00.

___ Please () Enter () Renew my membership in S.A.U.C.E.R.S. for one year at \$2.00 and send membership card.
